SAFETY RECALL 04517 NOT REQUIRED

December 2004

Dear International Customer:

International Truck and Engine Corporation previously notified you regarding this Safety Recall. G-04517 is a field campaign for vehicles that require the replacement of their tie rod arms.

International mailed out notification letters in November of 2004 for this recall and has since determined that an error existed in our campaign address files. There are only certain specific wheel-bases of vehicles that are involved in this recall. The vehicle, identified by its vehicle identification number (VIN), on the enclosed card was built with a different wheel-base that is not subject to this recall.

We sincerely apologize for any inconvenience this may have caused.

If you have any further questions regarding this Safety Recall and its application to your vehicle, please contact your nearest International Dealer.
