SAFETY RECALL 04301-R1

June 2, 2006

Dear IC Dealer:

Recall 04301 was released in March, 2004, and crews from IC Corporation have been in the field since then making repairs to all buses that were made available to them. The enclosed set of repair instructions includes a list of VINs that remain uncompleted. The repair instructions will also be posted on ISIS.

Your customers should be contacted and arrangements should be made to get these buses repaired by an authorized dealer. Depending on the VIN, the repairs could be extensive. When you order parts, you will need to supply VINS for all buses to be repaired. Parts will be consolidated and shipped to you in one shipment. Some supplies will be obtained locally.

Please request parts by email or fax to Kathy Anders at
