SAFETY RECALL 05516-R1
SAFETY RECALL 05517-R1

October 2005

Dear IC Corporation Customer:

The stop arms involved in these two recalls are Specialty Manufacturing Co.'s **5-series electric** stop arms. If you have received a notice for a bus that does not have a 5-series electric stop arm, then please disregard the notice. **A list of your VINs that do not require this repair is included with this letter.** The stop arm may be a different electric series, for example a 6-series, OR it may be an air-powered stop arm. Electric stop arms that are not 5-series (such as 6500) and air powered stops arms **do not** need to be repaired. For all non 5-series electric powered stop arms AND for air powered stop arms, please disregard the recall notice that you received.
