RECALL REMINDER NOTICE G-04503
July 2005

THIS IS AN **ISIS ONLY** NOTIFICATION.

There will be NO Dealer Mailing for this RECALL REMINDER.

Please refer to the dealer letter G-04503 for service instructions.

SUBJECT: SAFETY RECALL (U.S., EXPORT)
BUNK CONTROL PANEL of certain 9100, 9200, 9300,
9400, and 9900 models built 4/1/1994 thru 6/16/2002

Water intrusion into the sleeper berth's bunk control panel area may pool in the tops of the dome light, TC/VCR, and/or refrigerator power switches. The LED circuit boards (switch illumination) in these switches may begin to heat up and possibly produce a flame or fire, without warning that could cause property damage, personal injury or death.

This letter is to inform you that the *owners* of suspect vehicles who have not completed the Recall Service Procedure, have been sent a reminder to schedule an appointment to have the service performed.

We appreciate your patience and cooperation regarding this campaign and apologize for any inconvenience this may cause.
