SAFETY RECALL 03515

January 2004

Dear International Customer:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. International has decided that a defect related to motor vehicle safety exists in the **air compressor discharge tube** of certain 3200 and 4200 Series models built 10/01/2002 through 9/15/2003 with V-8 engines and air brakes or air operated park brakes (feature code: 04CAR). The vehicle identified on the enclosed card fits this description and our records show that you own this vehicle. Federal law requires that any vehicle lessor receiving this recall notice must forward a copy of this notice to the lessee within ten days.

REASON FOR THIS RECALL

A stand-off bracket that supports the copper air compressor discharge tube was not installed. Normal vehicle and engine vibration can cause the unsupported copper tube to fail at or near the air compressor connection.

RISK TO MOTOR VEHICLE SAFETY:

A failed compressor discharge tube could deplete the air system and may cause the parking brakes to apply. Even though the air pressure gauge and low air pressure warning buzzer would give warning, this condition could cause the vehicle to slow down or stop unexpectedly and could cause a **vehicle accident** that may result in **property damage, personal injury or death**.

ACTION YOU SHOULD TAKE

1. **Our records show that you are the owner** of the vehicle identified on the enclosed card. **If you are not the owner**, please read paragraph number 4.
2. **Please contact your local International dealer**, with your recall card in hand, to schedule an appointment to have your vehicle repaired.

All vehicles involved in this recall must be inspected. Vehicles requiring a repair will be fixed as required.

Dealers will have parts and instructions to make the inspection and repair by **1/05/2004**. This inspection will be performed without charge to you and will take approximately 20 minutes. If required, the repair will be performed without charge to you and will take approximately an additional 45 minutes. Have your dealer verify and correct your address, if necessary.

If your local International dealer performs the repair, they will submit a warranty claim; therefore, you **DO NOT** have to mail in the campaign card.

3. **If the vehicle will not or cannot be corrected**, please mark on the enclosed card under "CHECK ONE", the box which best describes why the vehicle will not be repaired, and return the postage-prepaid card to us.
4. **In the event you do not own the vehicle** described on the card, please complete the card, fill in the new customer name and address if known, and return it to us. This information will allow us to update our records so we can contact the new owner and you will not be contacted again regarding this recall.

REIMBURSEMENT OF REPAIRS COMPLETED PRIOR TO THE RELEASE OF THIS RECALL

If you paid to repair your vehicle for this defect prior to receiving this recall letter, you may be eligible for reimbursement of the repair costs if they were incurred between 10/31/2002 and 11/31/2003. Contact your local International dealer, with your original repair documentation and proof of payment, and the service advisor will determine what if any of the repair costs will qualify for reimbursement. International dealers determine what repair costs are eligible for reimbursement. However, if you choose not to work through an International dealer, you may submit the enclosed "REQUEST FOR REIMBURSEMENT" form, repair documentation, and proof of payment to:

International Truck and Engine Corporation
Warranty Claim Center Reimbursement Department
P.O. Box 888
Warrenville, IL 60555

IF YOU NEED ASSISTANCE

If you take your vehicle to your International dealer on a mutually agreed upon service date, and the dealer does not remedy this condition without charge on that date or within five days, you can obtain assistance by following the procedure described in the Owner Assistance Guide section in your Owner's Manual or by calling toll free 1-800-448-7825.

You may also wish to submit a complaint to the Administrator, National Highway Traffic Safety Administration, 400 Seventh Street, S.W., Washington, D.C., 20590, or call the toll-free Auto Safety Hot-Line at 1-888-327-4236 if your International dealer fails to repair or is unable to remedy this condition without charge or within a reasonable time.

We request your prompt attention to the correction of this defect and apologize for any inconvenience this may cause you.
