RECALL REMINDER NOTICE G-04508
March 2006

THIS IS AN *ISIS ONLY* NOTIFICATION.

Please refer to the dealer letter G-04508 for service instructions.

SUBJECT: SAFETY RECALL (U.S., EXPORT)
**Kelsey-Hayes (Lucas Varity or TRW) Anti-Lock
Brake (ABS) Electronic Control Unit on 1552,
1652, 4700 and 4900 truck models built 2/28/1999
thru 3/25/2004**

The anti-lock brake system (ABS) electronic control unit may misinterpret a corrupt wheel speed signal. The corrupt wheel speed signals may improperly activate the ABS, instead of deactivating the ABS. This may result in the driver experiencing a hard pedal feel and a decrease in deceleration at the end of the stop, resulting in extended stopping distances which could cause a vehicle crash, possibly resulting in **property damage, personal injury, or death.**

This letter is to inform you that the *owners* of suspect vehicles who have not completed the Recall Service Procedure, have been sent a reminder to schedule an appointment to have the service performed.

We appreciate your patience and cooperation regarding this campaign and apologize for any inconvenience this may cause.
